## GreenDimes gets rid of junk mail three ways:

- 1 ClickStop Automatic Removal**  
We get your name (and others in your house) off nine common lists used by thousands of marketers.
- 2 Custom Catalog Selector**  
You tell us which retailers, charities, and other senders already have you on their list. We've got over 6,500 in our system you can search.\*
- 3 Monthly Monitoring**  
GreenDimes doesn't just get you off lists, we keep you off – by monitoring key direct mail lists monthly and making it easy to resubmit requests.

We'll also plant **5 trees** on your behalf, in exchange for all your junk mail.

\* GreenDimes can take care of removing your name most of the time. Where retailers or other senders require your signature or phone call to remove your name, GreenDimes provides you with signature-ready letters or easy instructions to complete your request.
